Portfolio Data Derivatives Disclosures

Portfolio Exposure figures shown reflect certain derivatives held in the portfolio (or their underlying reference assets) and may not total 100% or may be negative due to rounding, use of derivatives, unsettled trades or other factors.

What are the Key Risks?

The value of shares in the Fund and income received from it can go down as well as up and investors may not get back the full amount invested.

Performance may also be affected by currency fluctuations. Currency fluctuations may affect the value of overseas investments.

The Fund seeks to achieve its targeted investment objective by allocating its assets across multiple "alternative" strategies and by investing in a wide range of assets. Such assets and investment instruments have historically been subject to price movements due to such factors as general stock market volatility, sudden changes in interest rates, or fluctuations in commodity prices. The Fund will seek to limit volatility using hedged strategies. As a result, the performance of the Fund can fluctuate moderately over time.

Other significant risks include: credit risk, derivatives risk, liquidity risk, operational risk, targeted return risk.

For full details of all of the risks applicable to this Fund, please refer to the "Risk Considerations" section of the Fund in the current prospectus of Franklin Templeton Investment Funds.

Important data provider notices and terms available at www.franklintempletondatasources.com.

Fund Management: CFA® and Chartered Financial Analyst® are trademarks owned by CFA Institute.

Strategy Allocation: Actual Allocation is a percentage of invested capital into fund managers (sub-advisors or co-managers) as of the end of the period. Target Allocations are as of the end of the period.

The Fund may shift allocations among strategies at any time. Further, K2 may determine in its sole discretion to not allocate to one or more of the strategies and/or to add new strategies.

Accordingly the above target allocations are presented for illustrative purposes only, and should not be viewed as predictive of the ongoing composition of the fund's portfolio (and its managers), which may change at any time.

Weightings as percentage of invested capital into fund managers (sub-advisors or co-managers). Holdings are subject to change. Due to rounding, the strategy breakdown may not equal 100%.

Portfolio Exposure:

Gross Exposure: Gross exposure is the sum of the absolute value of all exposures, directly or through derivatives, as a percentage of total assets. The sum of the percentage of long positions and short (in absolute terms) positions.

Net Exposure: Net exposure is the sum of the total value of all exposures, directly or through derivatives, as a percentage of total assets. The percentage value of the long positions less the percentage value of the short positions.

Long Exposure: Sum of the long exposures, directly or through derivatives, as a percentage of total assets.

Short Exposure: Sum of the short exposures, directly or through derivatives, as a percentage of total assets.

All performance data shown is in the Fund currency stated and include reinvested dividends and are net of management fees. Sales charges and other commissions, taxes and other relevant costs incurred on the issue and redemption of units paid by the investor are not included in the calculations.

Top Exposures: The Top Five Long and Short Exposures represent the five largest long and short equity issuer exposures of Franklin K2 Alternative Strategies Fund as of the date indicated. Issuer exposures include actual security holdings and single security exposures obtained through the use of derivatives. Direct security holdings and derivatives exposures are combined for calculation purposes. These direct holdings and derivatives do not represent all of the securities purchased, sold or recommended for advisory clients, and the reader should not assume that investment in securities of the issuers listed was or will be profitable.

TER: A fund's Total Expense Ratio (TER) is a measure of its total costs and fees expressed as a percentage of the average net assets of the fund in the previous financial year and with reference to the asset class shown in the performance table. As of 31 December 2018. Calculation method according to Luxembourg law. The TER as of fiscal year-end is published in the latest available annual report and the latest semi-annual report, if published thereafter, for Switzerland and is calculated according to SFAMA guidelines.

Distribution of Dividends: The Board of Directors intends to distribute all of the income attributable to the Distribution Shares. No distribution of dividends shall be made for the Accumulation Shares (**acc**), however the income attributable will be reflected in the increased value of the Shares. Dividends may be paid monthly (**Mdis**), quarterly (**Qdis**), or annually (**Ydis**).

Composition of Fund:

Manager Allocation: Manager allocation includes managers that have been appointed as sub-advisors or managers of investment funds. K2 may determine in its sole discretion to not allocate to one or more of the managers and/or to add new managers. Accordingly, the manager allocation is presented for illustrative purposes only, and should not be viewed as predictive of the ongoing composition of the Fund's portfolio, which may change at any time.

Important Information (continued)

Weightings as percent of invested capital into fund managers (sub-advisors or co-managers). Percentage may not total 100% due to rounding. Information is historical and may not reflect current or future portfolio characteristics. All portfolio holdings are subject to change.
