Call (+352) 46 66 67-1 for more information

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Franklin Templeton International Services S.à r.l. in relation to this Key Information Document.

This PRIIP is authorised in Ireland.

Date of Production of the KID: 30/06/2025

What is this product?

Type

The product is a share class of FTGF Brandywine Global Opportunistic Fixed Income Fund (the "Fund") which is part of the Franklin Templeton Global Funds plc, an investment company with variable capital incorporated with limited liability in Ireland and established as an umbrella fund with segregated liability between sub-funds.

Term

The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

To seek to maximise income and growth of capital (total return).

Investment Policy

The Fund mainly invests in corporate and government bonds denominated in any currency. These investments may be from anywhere in the world, including emerging markets, and some of them may be below investment grade (or comparable).

These investments may include convertible securities and asset- and mortgage-backed securities.

Derivatives and techniques The Fund may use derivatives for reducing risks (hedging) and costs, and to generate additional income or growth.

Strategy The investment manager uses macroeconomic, interest rate and credit analysis to identify securities that appear to offer the best return for their risk level and operates a value approach to global bond markets. The investment manager may take both long and short positions on individual securities, buying those it appears will increase in price and taking short positions on those it appears will decline in price.

SFDR category Article 6 (does not promote environmental and/or social characteristics or have a sustainable investment objective under EU regulations).

Base currency US dollar (USD).

Benchmark(s) FTSE World Government Bond Index. Used for performance comparison. The benchmark plus 2% per annum is also used as a performance target (gross of fees) over a complete economic cycle.

The Fund is actively managed and may not deviate materially from that of the benchmark(s).

Share Class Policy

Income and gains from the Fund's investments are not paid but instead are reflected in the Fund's share price.

For this share class, the investment manager intends to index hedge "(IH)" the currency exposure, which means that the share class will retain a degree of exposure to the currencies that are significant to the fund's investment strategy in comparison to the currencies of the relevant index.

Buying and selling shares

You may normally buy or sell shares on any day the New York Stock Exchange is open for business.

Intended retail investor

Investors who understand the risks of the Fund and plan to invest for at least 5 years. The Fund may appeal to investors who:

- are looking for a combination of income and investment growth
- are interested in exposure to global bond markets as part of a diversified portfolio
- have a high risk profile and can tolerate significant short-term changes in the share price

Product availability The Fund is available to all investors with at least basic investment knowledge, through a wide range of distribution channels, with or without the need for advice.

Terms to understand

asset- and mortgage- backed securities: Bonds backed by consumer debt (such as mortgages, credit card and other loan-type debt) and whose income derives from the payments received from the underlying borrowers.

bonds, below investment grade: Bonds represent an obligation to repay a debt, along with interest. Below investment grade bonds generally pay higher interest rates but are considered less likely to make all scheduled payments or repay the initial debt.

convertible securities: Bonds that offer the option or the obligation of receiving repayment of principal either in cash or shares in the company.

derivatives: Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

emerging markets: Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

Depositary

Bank of New York Mellon SA/NV, Dublin Branch

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Credit risk
- Emerging Markets risk

For the other risks applicable to this Fund, please refer to the Primary Risks section of the Fund supplement contained within the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years

Example Investment: 10000 NZD

Scenarios	Returns	If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	-	-
Stress	What you might get back after costs	5 810 NZD	6 530 NZD
Stress	Average return each year	-41.90%	-8.17%
Unfavourable	What you might get back after costs	8 520 NZD	8 680 NZD
Unfavourable	Average return each year	-14.80%	-2.79%
Moderate	What you might get back after costs	10 160 NZD	10 450 NZD
Moderate	Average return each year	1.60%	0.88%
Favourable	What you might get back after costs	11 590 NZD	13 110 NZD
Favourable	Average return each year	15.90%	5.57%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between August 2021 and December 2024.

Moderate scenario: This type of scenario occurred for an investment between March 2015 and March 2020.

Favourable scenario: This type of scenario occurred for an investment between December 2015 and December 2020.

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund, but the assets are held separately from FTIS by the depository. BNY Mellon SA/NV Dublin Branch, as the appointed depository of the Fund, is liable to the Fund or its shareholders for any loss of financial instruments held in custody by it or its delegates (cash could however be lost in case of default of the depository or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- NZD 10 000 is invested

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	112 NZD	595 NZD
Annual cost impact (*)	1.1%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.0% before costs and 0.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

One-off costs upon entry or exit	Description	If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 NZD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 NZD
Ongoing costs taken each year	Description	If you exit after 1 year
Management fees and other administrative or operating costs	0.81% of the value of your investment per year. This is an estimate based on actual costs over the last year.	81 NZD
Transaction costs	0.31% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	31 NZD
Incidental costs taken under specific conditions	Description	If you exit after 1 year
Performance fees (and carried interest)	There is no performance fee for this product.	0 NZD

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This Fund has no minimum required holding period. We consider that the 5 year recommended holding period is appropriate because the Fund is designed for long-term investment. You may sell your shares on any dealing day. The value of your investments may go down as well as up irrespective of the period you are holding your investments, depending on such factors as the performance of the Fund, movements in stock and bond prices, and conditions in financial markets generally. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

Investors who would like to receive the procedures relating to complaints handling or wish to make a complaint about the Fund, the operation of FTIS or the person advising on or selling the Fund, should go on the website www.franklintempleton.lu, contact Franklin Templeton International Services, S.à r.l., 8A, rue Albert Borschette L-1246 Luxembourg, or send an e-mail to the client service department at service.Lux.franklintempleton@fisglobal.com.
